Get a readability score on each web page and improve content based on highlighted readability elements such as long words and sentences.
- ✓ **Set automated reports**
Customizable, beautiful reports automatically sent at a frequency of your choosing to as many recipients as you like.
- ✓ **Unlimited support and training**
Professional support and training staff are always available to assist and train your staff.

“ The Web Governance Suite is one of our best investments. The quality assurance tool enabled us to clean up a plethora of content on our website, as well as gives us the ability to proactively monitor new material. As someone who deals with a magnitude of software and apps, I can truly appreciate when something comes along that actually makes my life easier. ”

-Bruce Jenkins,
Manager of Marketing Technology,
Blank Rome LLP

Easy language management

Find every misspelling with a powerful customizable dictionary that eliminates false positives and proactively flags inappropriate words.

Quickly identify broken links

Monitor every link on your site and see problem links in organized, filtered lists.

Increase comprehension

Siteimprove Readability tests your website content against one of seven recognized readability tests, and by utilizing machine learning, Readability returns score results based on the actual content of web pages.

Schedule custom reports

Schedule customized reports to be sent to you and your web team at a frequency of your choosing and easily create page groups to delegate responsibility across your team.

Access complete inventory

A comprehensive overview of all media files, PDFs, and other documents, as well as emails, phone numbers, and other info.

Set website policies

Set a range of policies within pages, documents and media files that help ensure multiple editors conform across multiple sites.
